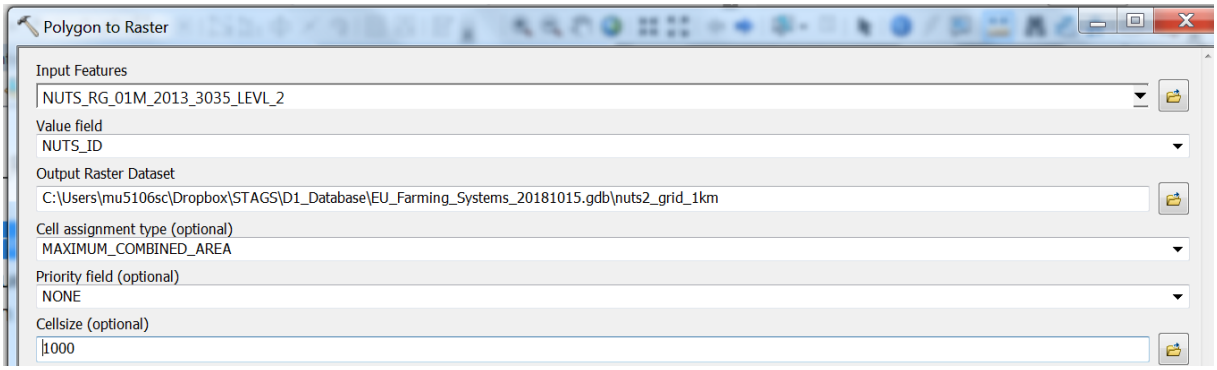
Date: 2018/12/20

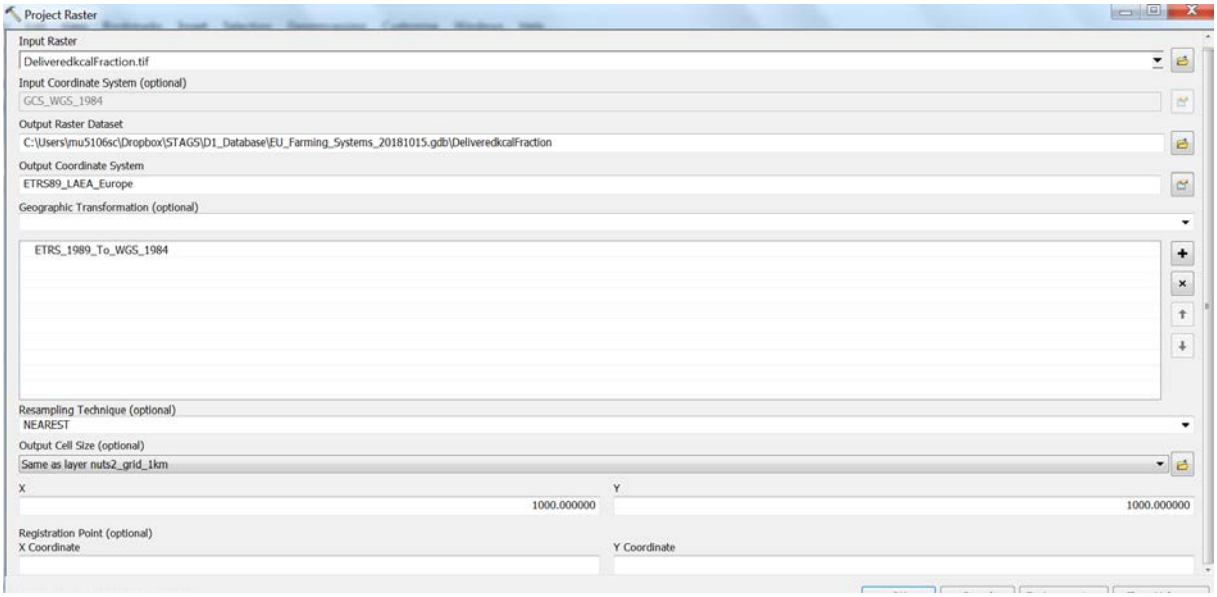
Author: Murray Scown

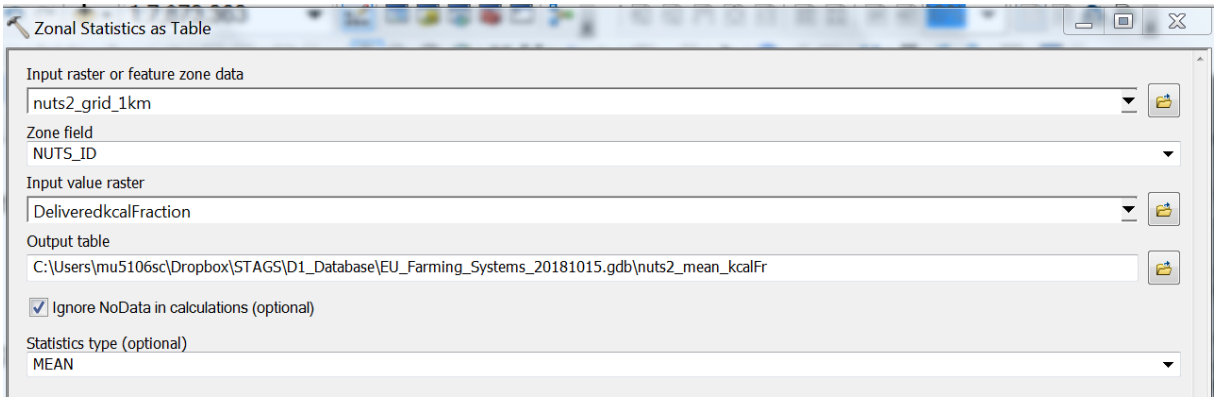
Purpose: Document processing of calorie data

1. Downloaded calorie data from [http://www.earthstat.org/crop-allocation-food-feed-nonfood/](http://www.earthstat.org/crop-allocation-food-feed-nonfood/)
2. Created a 1km x 1km grid of NUTS2 IDs



3. Projected calories delivered raster to same extent and resolution as nuts2_grid_1km





4. Calculated mean calories delivered within each NUTS2 region as table
